Cheese Cheese is a food typically made from the milk of cows, water buffalo, goats, sheep or other uncommon animal species. It's most commonly found in western cultures as a staple food. It can be melted and mixed with other foods such as onion and pepper to create sauces, blended into cocktails such as the Bloody Mary or Caesar as a base flavor or atop various dishes such as pizza and pasta. Cheese is rich in protein and fat content with an average of around 75% of calories coming from fat so it's not recommended for those who wish to lose weight. There are several Indian and Sri Lankan artists and illustrators of children's books that specialize in the field of illustration and storytelling. They are considered experts in their field. Several Indian authors have written early readers books, specifically designed to help children learn to read, or to help children who are learning English as a second language.

Malayalam literature is not densely populated with children's books. There are very few authors who have written large numbers of early readers. Most of what exists is either translations of English works, or by South Indian writers who write for the Kannada and Telugu markets, where the demand for these books is much higher. The following authors are ones that translate or write exclusively for the young reader market:

Turtleback Books publishes several titles each year that deal with South Indian culture and folklore stories that include animal characters. Most of these stories are written for young adults as well. There are several book series that deal with the same type of stories. The "Sreemathyam" series by M. P. V. Kamalakara Menon is one example of this type of work, along with "Bhagavathar katha" by Pappu Gopalakrishnan Nair and the "Kathakkali Katha" series by K. Ravi Varman and Ragini Parvathy Menon (sisters). List of South Indian writers of children, but some are written for young adults as well.
